

Dear Tournament Directors,

## **MonRoi introduces the tournament management tool you've been waiting for!**

### **Organizing and managing your tournaments just got easier!**

We know how complicated, time-consuming, and expensive it is to run successful chess tournaments. Dealing with lost or illegible score sheets, resolving conflicts, producing bulletins, and attracting sponsorships are just a few of the challenges you face. The role of tournament organizer has never been an easy one - until now!

MonRoi is proud to introduce a **revolutionary new system** that makes organizing and managing your tournaments as quick and simple as the click of a mouse. Our wireless Professional Tournament Manager is an easy to use, secure, and cost-effective way to run chess tournaments at every level. **FIDE-approved** and **endorsed by Garry Kasparov and Susan Polgar**, this innovative system enables you to:

- Manage hundreds of games simultaneously
- Broadcast all of your matches in real time
- Save time and money
- Attract media attention and sponsorships

The MonRoi system was developed and patented by mastermind Brana Malobabic-Giancristofaro, a gifted engineer whose impressive credentials include developing new technologies at Nortel Networks. Trained by Grandmasters since childhood, Ms. Giancristofaro has now combined her technical expertise with her passion for chess to bring you the unique MonRoi solution.

MonRoi's revolutionary tournament management system was recently implemented at several international competitions, including the 81<sup>st</sup> Hastings Masters, the Singapore Masters Open, and the World Championship U20. Players of all levels, including the world's top Grandmasters, used the system and the verdict was unanimous: "The MonRoi system is a natural progression of chess in the 21st century".

### **How does it work?**

Players quickly and easily enter their games electronically using wireless, hand-held, tamper-proof MonRoi *Personal* Chess Managers. A simple tap of the stylus instantly and accurately records each move and transmits the data to your *Professional* Tournament Manager.

MonRoi's Professional Tournament Manager is the only system of its kind. By working with technical advisors and chess experts, we have designed a system that meets all of your needs and ensures the success of all of your tournaments.

### **MonRoi's Professional Tournament Manager manages hundreds of matches simultaneously**

More accurate and more secure than paper score sheets and DGT e-boards, MonRoi makes it easy to manage all of your tournament games. Six layers of security make MonRoi devices tamper-proof and universal pictorial symbols eliminate language barriers. At the touch of a button, MonRoi's Professional Tournament Manager also:

- Eliminates delayed scoring by tracking each match in real-time
- Automatically produces PGN files, bulletins, and tournament reports following each match
- Projects chess games in real-time on the wall or on a white board
- Eliminates errors and tie arguments
- Detects draws and illegal moves
- Rapidly edits chess columns for magazines

According to Susan Polgar, *“The MonRoi system revolutionizes the organization of chess tournaments at every level. This is the best way to record and store games.”*

## **MonRoi’s system is easy to use**

MonRoi’s system is easy to use, even if you have no prior computer knowledge! Users who were initially skeptical about this new technology were amazed by its simplicity and accuracy, as well as by the advantages it offers.

## **MonRoi’s Professional Tournament Manager broadcasts your matches online in real-time**

For the first time ever, Chess fans from around the world can follow all of your tournament games online in real-time. Our revolutionary system allows you to broadcast thousands of games from a single computer via MonRoi’s World Databank of Chess.

Garry Kasparov says, *“MonRoi’s breakthrough technology allows chess enthusiasts from all over the world to get connected and benefit in a way that has never been possible before.”*

## **MonRoi saves you time and money**

Transcribing games manually from paper score sheets to a computer is a painstakingly slow and expensive process. Paper score sheets are easily misplaced, often illegible, and frequently pose communication problems due to language barriers. MonRoi’s solution eliminates all of these hassles and saves you time and money!

In addition to saving on transcription and reporting costs, you save substantial storage and shipping fees, as well as the set-up costs associated with traditional tracking methods. MonRoi’s pocket-sized system is portable and sets up quickly and easily- simply plug it in and play! Our wireless system also eliminates the liability incurred by injuries caused by cables running across your tournament floor.

## **MonRoi attracts Media attention and major sponsorships**

MonRoi’s innovative system is revolutionizing the world of Chess and **the media are taking notice**. Simply by using our system, you get **free publicity for your tournament!**

But that’s not all! MonRoi’s Chess Managers also attracts major sponsorships for your tournament. **Your sponsorships will skyrocket** when you offer your sponsors the opportunity to place their logos on each hand-held device, as well as advertising space on your tournament’s MonRoi World Databank of Chess Web page.

**So affordable, you can't afford to hold another tournament without it!**

A limited number of devices are available for lease only until end of year 2006.

Call MonRoi to find out how tournament organizers make money.

**Our Guarantee:** If you are not satisfied with the MonRoi services for any reason, simply ask for a full refund.

**Special Offer: When you purchase one Professional Tournament Manager, you will receive a FREE SD card that lets you hold thousands of stored games in the palm of your hand!**

Try it once and you'll never go back to the old paper system!
